

Bayes AV Guide

Wired Connection

To turn on the screen please press the "ON" button on the control panel below the screen.

Connecting your device to the Bayes AV, the Cables/Spider button- should already be lit as default, connect the USB for the Sound/Video bar and the Kramer Spider connector to share/extend your screen to the TV.

If you have problems connecting, please contact BayesITSupport@ed.ac.uk for assistance/troubleshooting.

If you are still unable to connect, contact Bayes reception to request the loan of a laptop that will connect to the App

Please do not disconnect or change any cables behind the screen.
